# MINUTES City of Guadalupe

# Regular Meeting of the Guadalupe City Council Tuesday, May 26, 2020 at 6:00 pm City Hall, 918 Obispo Street, Council Chambers

#### **ROLL CALL:**

Council Member Tony Ramirez
Council Member Eugene Costa Jr.
Council Member Liliana Cardenas
Mayor Pro Tempore Gina Rubalcaba
Mayor Ariston Julian
Mayor pro Tempore Rubalcaba absent.

#### **MOMENT OF SILENCE**

#### **PLEDGE OF ALLEGIANCE**

#### **AGENDA REVIEW**

# **COMMUNITY PARTICIPATION FORUM**

Mr. George Alvarez spoke on the subject of the homeless in Guadalupe. They are homeless for a variety of reasons, but many are in that condition due to mental illness issues. He cited an example of a homeless man threatening to kill him with no provocation or acquaintance with him due to that condition. The County needs to take more charge of this problem as the City of Guadalupe has neither the funds nor the experience to care for these problems.

He also wished to draw attention to the deplorable habits of some business owners and their staff who park in front of the stores for the day, thus making it hard for customers to avail themselves of their services. He spoke of the lack of parking spaces in town adjacent to apartment buildings and the fact that steps must be taken or it will get worse. He felt that apartment managers should monitor the situation around.

Soralla Arroyo spoke representing the recycling business on Olivera Street next to the Liquor Store. Th business does supply income to low income individuals as well as recycles what would be trash and litter to help keep the Cities' streets and public places clean. She presented a large cardboard sign showing a plan for orderly traffic flow of the public clientele and rules for safely and participating in the program. She announced that the parking lot they work out of has been newly black-topped. She also related that a new recycling center had opened in Santa Maria on Betteravia Street. That alleviates some of the traffic in Guadalupe.

#### **CONSENT CALENDAR**

The following items are presented for City Council approval without discussion as a single agenda items in order to expedite the meeting. Should a Council Member wish to discuss or disapprove an item, it must be dropped from the blanket motion of approval and considered as a separate item.

## **REGULAR BUSINESS**

9. Construction services contract for LeRoy Park and Community Center Rehabilitation Project.

Written Report: Shannon Sweeney, Public Works Director / City Engineer

Recommendation: That the City Council, by motion, reject all bids received for the LeRoy Park and Community Center project and start a new bidding process as soon as possible.

Ms. Sweeney reported that our budget called for a maximum of \$ 3,434,271.99 for construction of the LeRoy Park facility and grounds. All four bids received were over \$4,000,000. She recommends that we reject all bids and restart the procuring process over again. She proposes moving the landscaping and hardscape task from the base bid to help with the costs.

Mayor Julian stated that while it may delay the development, it is in the best interest of the City to follow this course of action.

Council Member Cardenas asked if the figure quoted of available money included the extra 20% the County was funding? Ms. Sweeney answered that it was marked for usage in other places. We have no room for error as there is no contingency money available.

Motion made by Council Member Costa Jr., 2<sup>nd</sup> by Council Member Cardenas to reject all bids received on LeRoy Park and Community Center project be rejected and start over in advertising for bids. 4/0 passed.

#### 10. Fiscal Year 2018-2019 Audited Financial Statements.

Written Report:

Lorena Zarate, Finance Director

Recommendation:

That the City Council receive and accept the City of Guadalupe Financial Statements for the year ended June 30, 2019 along with the Independent

Auditor's Report.

Finance Director Lorena Zarate gave a detailed account of the findings of Badawi and Associates and the financial status of the City. Total net position of the City as a whole increased approximately \$1.5 million as compared to fiscal year 2017-2018. Total assets increased about \$1.4 million, and total liabilities decreased about \$102,000. Total government wide revenues increased about \$1.4 million, which is about 14% from the prior year. The very detailed account of our finances is a general improvement in our meeting our expenses and staying within our budget. This does not mean we can meet all our needs and are not still in danger of being a fiscally at-risk City but headway is being made. The Auditors' reports pointed out a number of faults in the Cities ability to keep internal controls in all their departments. Most of this is due to outdated computers and systems soon to be corrected. Overall, the general fund's revenues exceeded expenditures in the amount of \$183,197 for fiscal year 2018-2019, resulting in a positive fund balance of \$15,325 compared to (\$167,872) from fiscal year 2017-18.

Ms. Boydston reminded the Council that we are still in dire straits as a City. Even though the picture is brighter and revenue has increased by 1.5 million, we still have no reserve in the City coffers of a 15% reserve for unexpected expenses or disasters, which due occur in the course of events.

Motion made by Council Member Ramirez, 2<sup>nd</sup> by Council Member Costa Jr. to accept the City of Guadalupe' Financial Statement for 2018-19. 4/0 passed.

#### City's response to a Santa Barbara Grand Jury Report entitled "Cyber-Attacks Threaten 11. Santa Barbara County".

Written Report:

Todd Bodem, City Administrator

Recommendation:

That the City Council:

- 1. That the City Council review staff's recommendations for the City's response to the Santa Barbara County Grand Jury Report entitled "Cyber-Attacks Threaten Santa Barbara County" and make any changes the Council believes are necessary; and
- 2. That the City Council adopt Resolution No. 2020-39 approving Exhibit 1 final response (with any changes made by the Council) to the Santa Barbara County Grand Jury Report entitled "Cyber-Attacks Threaten Santa Barbara County" with the signatures of each member of the City Council to Judge Michael J. Carrozzo and the Santa Barbara Grand Jury.

Administrator Bodem stated that Cyber attacks were a real concern and had accelerated to a critical level for all government agencies as well as individuals and companies. The State and County had put out a warning and the Grand Jury has compiled a list off actions to be taken to protect the Cities and Counties from these attacks. Eight Cities in Santa Barbara County were cited as concerns.

and 9 jurisdictions in our County were cited as concerns.

On March 18, 2020, the Grand Jury put out a list of 8 findings and 12 recommendations to tackle and protect against this threat. Each City is mandated to respond to those findings with their plan of defense. Major expense will be added to the budgets to correct problems within each Cities' records system. It will entail spending for new computer systems and software to fend off any attack. Guadalupe is already in the process of upgrading our computer systems and installing new financial systems for records and accounting over all for our departments. The Council is asked to adopt these findings, and each sign that they will approve the findings of the resolution.

Ms. Boydston spoke saying that this unexpected expense to the City required additional help as earlier she had pointed out lack of reserves. She stated she was donating \$1,000 dollars to the City for help with the expenses of this project. She handed an envelop to Mr. Bodem.

Administrator Bodem and all members of Council expressed their thanks and appreciation for the gift to the City.

Motion made by Council Member Ramirez, 2<sup>nd</sup> by Council Member Costa Jr. to adopt Resolution No. 2020-39. Roll Call. 4/0 passed.

#### **FUTURE AGENDA ITEMS**

1. Parking by owners and staff in front of their businesses.

Officer Lemon spoke informing the Council how the officers were handling the situation of improper parking all over the City. Apartment house parking on the streets and in front of businesses is very bad in our City. The officers give tickets of seven-day' notice, then they will ticket for a fine.

# REPORT TO THE CITY COUNCIL OF THE CITY OF GUADALUPE Agenda of June 9, 2020

Prepared by:

Thomas Brandeberry, RCDCC

Approved by:

**Todd Bodem, City Administrator** 

**SUBJECT:** 

Revision of Grant Application for Supplemental Funding for the LeRoy Park and

**Community Center Rehabilitation Project** 

#### **RECOMMENDATION:**

It is recommended that the City Council Adopt Resolution No. 2020-41 authorizing the City's submission to the State of California of one or more application(s) for the purpose of supplementing existing contract # 17CDBG12099 in the aggregate amount, not to exceed, of \$900,000 for the following CDBG activities, pursuant to the January 2020 CDBG NOFA:

03D Youth Center

\$900,0000

#### **BACKGROUND:**

The City submitted an application to the Department of Housing and Community Department (HCD) for Community Development Block Grant (CDBG) program funds in November of 2017. The City received a grant of \$4,093,023 to restore/ rehabilitate Leroy Park and Community Center. Due to a number of unforeseen factors, the project was delayed and costs have increased, leaving some features from the original design and CDBG scope of work of the park and community center unfunded. However, the bid package included both funded and unfunded features to allow for unfunded features to be added in as additional funding became available.

#### **DISCUSSION:**

On April 28, 2020, the State CDBG program sent an email to the City indicating that they would be able to increase 2017 projects that had gaps in funding for public facility projects by 20% of the original activity (not contract) cost. However, the City has since learned that the State the 20% is calculated on the Contract amount and not the Activity amount. This confusion lead to the assumption by staff that the Amount available was lower that what the State had In mind. While this will not cover the full shortfall in funding it will allow the City to increase in CDBG project award an additional \$900,000.

The City was required to submit a number of documents to the State CDBG Program, all of which have been submitted except for this resolution.

The previous resolution adopted by the City Council authorized the City to apply for up to \$820,000 in supplemental CDBG funding. As it turns out, the City is authorized to apply for up to \$900,000 in supplemental funding, and therefore, if the Council wishes to authorize staff to apply for this larger amount, it must adopt a new resolution.

The most recent cost estimate for the unfunded portion of phase 2 of the project is \$1,774,651.65. While the \$900,000 of possible supplemental funding will not cover all unfunded features, it would help greatly in getting to a fully completed project. Other funding sources are being reviewed or applications have been submitted.

Funded and unfunded features were included in the design of the bid package in order for the City to be able to add unfunded features to the contractor's work as funding becomes available. The bid package required bids for both phase 1 and 2. Depending on when the construction contract for the project is awarded and the CDBG supplement award being executed by the State, these funds could be added before the award to the contractor or via a change order should the construction contract be awarded before the City has an amended CDBG 17CDBG12099 contract.

#### **FISCAL IMPACT:**

The potential 20% (approximately \$900,000) increase in project funds would allow the City to complete portions of the project which are currently in the 2nd phase pending funding. It should be noted, as per the email (attached) no additional administration funds will be added to the contract and these funds can only be used for direct costs associated with the renovation of LeRoy and Community Center.

#### **ATTACHMENTS:**

- 1. Resolution No. 2020-41 "A Resolution of the City Council of the City of Guadalupe adopting an application for funding and the execution of a grant agreement and any amendment thereto from the 2019-2020 funding year of the State CDBG Program".

# REPORT TO THE CITY COUNCIL OF THE CITY OF GUADALUPE Agenda of June 9, 2020

Prepared by:

Lorena Zarate, Finance Director

Approved by:

**Todd Bodem, City Administrator** 

**SUBJECT:** 

**Itech Solutions Temporary Agreement** 

#### **RECOMMENDATION:**

That the City Council ratify the temporary agreement with Itech Solutions for IT services

#### **BACKGROUND:**

On April 30, 2020, the City of Guadalupe unfortunately suffered a breach in its cybersecurity, causing the major server, which hosts all financial data, to be compromised. Itech Solutions was engaged to help provide an assessment of the damage and perform the remediation process to get the City's server running appropriately and to keep our sensitive information safe, and fortunately, Itech Solutions was successful on all accounts. Itech Solutions' assessment indicated that the City was lacking security in many areas. In light of the recent breach and grand jury report regarding cybersecurity, City Staff determined that the City's network had to be reinforced and that this need was urgent. As such, City Staff terminated the relationship it had with its information technology (IT) consultant, and in its place, engaged Itech Solutions on a temporary basis in order to strengthen our security and avoid future breaches. City Staff engaged Itech Solutions on a 90 Day Month to Month agreement in compliance with the Guadalupe Municipal Code 4.04.120 concerning Purchases."Guadalupe Municipal Code section 4.04.120 provides that the City Administrator (or delegee) may "make emergency procurements of supplies, equipment, services, or construction items when there exists a threat to public health, welfare, or safety," and that such procurements shall be ratified by the City Council as soon as practicable. City Staff determined that public safety was at risk due to the City's inadequate cyber-security, and therefore, an emergency procurement was appropriate. Accordingly, City Staff is now requesting that the City Council ratify this emergency procurement.

#### **DISCUSSION:**

Itech Solutions is a California Central Coast based company with nearly two decades of experience providing full-service IT services, support, and security. Itech Solutions partners with clients to ensure technology notonly fosters growth and efficiency, but also protects against security threats and

disasters with a "SecurityFirst!" approach. City Staff was very satisfied with the services and assistance provided by Itech Solutions in connection with the recent cybersecurity breach.

City Staff plans on preparing a Request for Proposal(RFP) for IT services in the coming months in order to establish a long-term agreement. The City Council will be required to award the contract to the successful proposal because the value of the contract will exceed \$50,000. There was insufficient time to prepare such an RFP and award the contract given the City's current IT needs, and therefore, determined that an emergency procurement was necessary and appropriate.

#### **FISCAL IMPACT:**

As noted on the sixth page of the attachment, Itech Solutions will provide services consistent with the Bronze labeled plan. In comparison to the City's actual IT services provided by Techxpress, the Bronze plan is a significant upgrade. As noted on the eleventh page of the attachment, the quote explains that the month cost for the Bronze plan will be \$4,600. This is an increase of about \$1,500. The annual budget for IT services is under the non-departmental expenditure category, which is under budget through the month of April. As such an increase of \$1,500 for the month of June, will not significantly impact the City's financial situation. The quote also indicates a one-time setup fee of \$8,350, the funding for which staff will request from the City Council by way of a future budget amendment.

The "SLA Response Time" is defined as the timeframe in which ITECH Solutions will start working on the service request and <u>is not</u> an indication of when the issue will be resolved. The technician working on the service request will be able to provide an estimate of completion after performing a diagnosis of the service request.

SLA Response Time	SLA Description
Emergency – Same Day (2 hours onsite, 1 hour remote)	Critical system is down, little to no functionality, no workaround, data corrupted, many users affected, regulatory or legal implications. Use this priority for any afterhours same day
Emergency - Next Business Day (2 hours onsite, 1 hour remote)	Critical system is down, little to no functionality, no workaround, data corrupted, many users affected, regulatory or legal implications, can wait until next business day to address.

### MANAGED SERVICES | LAYERED SECURITY DIAGRAM

In today's cybersecurity landscape there is not a single, or even handful of security products that provide enough security to effectively prevent a security breach. It takes multiple layers to truly protect a company from a security breach and even then, there is not 100% protection. Anything that can be locked, can also be unlocked which means the proper security measure is to have more layers (locks) in place in the case one of them fails. These layers (as described in the below graphic) address several security layers identified by NIST standards.

### MANAGED SERVICES | LAYERED SECURITY ADDITIONAL DETAILS

#### **Incident Response:**

Unfortunately, even the use of multiple security layers is not 100% fail proof. Having several layers of security in place will make the client much less of a target, however internal resources such as a disgruntled or careless employee can cause a security breach as well. For this concern, ITECH Solutions can provide an incident response cybersecurity team on standby should a security breach occur. ITECH Solutions incident response cybersecurity team ensures that a client will experience a much faster clean up, and less downtime. ITECH Solutions can also work with the client's insurance companies providing all documentation needed for any insurance claims to maximize coverage. If a client declines incident response services ITECH Solutions will provide reasonable efforts to remedy the breach, however, cannot guarantee full remediation without the support of a cybersecurity firm. Incident response service costs are not included in this Agreement and will be provided to client by quote in writing.

#### **Insurance Policies:**

Client is required to carry general liability and cybersecurity insurance ("Insurance") to maintain compliance with this Agreement. Should a security breach occur it is imperative to have coverage for damages and costs associated with resulting damages, remediation costs and potential liability to third parties. Security breach costs can be substantial and ITECH Solutions will be unable to attempt remediation of a breach if client does not have enough funds or insurance proceeds available to pay ITECH Solution for such additional services. If at time any ITECH Solutions determines that client is without Insurance, ITECH Solutions reserves the right to cancel this Agreement and offboard client's services.

#### **Backup, Continuity & Disaster Recover Details:**

Using Backup, Continuity & Disaster Recovery (BCDR) backup services are a minimum requirement of this Agreement unless otherwise agreed by both parties in writing. A BCDR service provides continuity and prevents downtime by providing a local and cloud failover environment during the event of a theft, fire or anything that causes loss of access to devices that are being backed up. For software as a service (SaaS) products in the cloud the third party vendor does not guarantee backup of the client's cloud data or protection against Ransomware. ITECH Solutions' SaaS backup services for cloud applications are also required to protect against data loss for cloud apps unless otherwise agreed by both parties in writing.

#### Secure File Sync & Share Services:

ITECH Solutions recommends a File Sync & Share service to secure PII data in the cloud and enable the client's organization to share files via web links improving security and provide data governance. These links can be password protected, expire on a date (or after a download count) and be made private or public. ITECH Solutions File Sync & Share services include advanced features and integration with Office 365, Google Docs, and Active Directory Domain Servers. A full audit trail is provided with 6 months of file retention audit history for previous saved versions. Additional security includes ransomware protection to ensure your files do not become compromised by ransomware.

Attachment 1 - April 2020 Finance Report

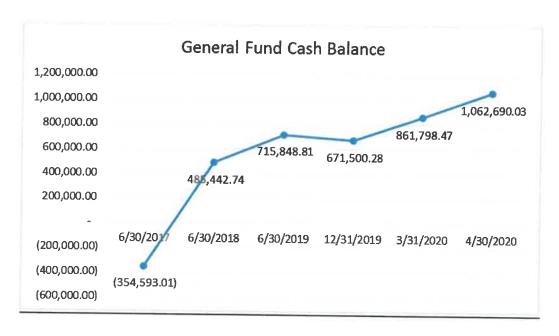

# City of Guadalupe Financial Report Fiscal Year to Date through April 30, 2020

#### Overview

The fiscal year 2019-20 financial report concentrates on the General Fund and Water/Wastewater Enterprise Funds as of April 30, 2020, or 83 percent of the year expended. The purpose of the report is to provide a status of cash, fund balance and budgeted Revenue and Expenditures versus actual at 83 percent of the fiscal year expended.

#### **General Fund Cash**

The annual cash balance below shows positive cash balances as compared to prior; total cash as of April 30<sup>th</sup>, 2020 was \$1,062,690.03. Since 2017, there has been a positive increase in cash balances.

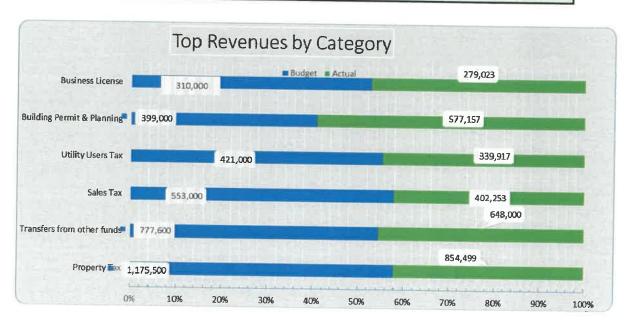

#### **General Fund Revenue**

Budgeted revenues versus actual revenue received through April 30, 2020 shows the General Fund slightly above target at 86.5 percent of expected revenues.

The table and graph below show General Fund revenue by category. Highlighted in yellow are specific revenue categories that have fallen short as compared to the budget. In regards to property and sales tax, which comprise our top revenue categories, timing delays in payments cause the shortage. In addition, the COVID pandemic has caused the deferral of sales tax payments to local jurisdictions to help relief small businesses, which may cause sales tax

revenue to be lower than expected. Building License and Business Permit revenues are currently exceeding the budget, due to the Pasadera development, which has continued amid the COVID pandemic. City Staff will continue to monitor the General Fund revenue closely. City Staff is also working with FEMA to obtain reimbursement for costs related to the pandemic.

The City Council department is exceeding the budget mostly because of training/travel expenses. The Finance department is exceeding the budget mostly because of temporary employees during new staff transitions. The Building Maintenance department is exceeding the budget mostly because of operating expenses and professional services, including improvements to offices and building supplies. The Fire department is exceeding the budget mostly because of employee payroll costs. Overall, expenditures for the General Fund are lower than revenues so far. City Staff will continue to monitor closely, especially as it relates to virus pandemic. The Finance Department has created a new account code to track COVID related costs separately to help with reimbursement from FEMA.

#### **General Fund Balance**

The term fund balance is used to describe the net position of governmental funds calculated in accordance with generally accepted accounting principles (GAAP). It is intended to serve as a measure of the financial resources available to the fund. There are constraints in spending fund balance depending on the type of resources (nonspendable, restricted, committed and assigned). Fund balance represents the total amount accumulated in the fund from prior years

at a point in time. The fund balance in the General Fund as of April 30, 2020 is positive \$435,316. The graph below shows this upward trend through the past several years. A priority for City is to continue to increase the fund balance enough to establish a reserve of a minimum of 15% of the General Fund operating budget, which is \$684,504.
