Subject: Public Safety Letter for Council Tonight

Honorable Mayor, Council Members, Mr. Bodem-

I just wanted to take a moment to offer my thoughts on the perceived state of Public Safety.

Given the existing challenges, I think there is room for a three pronged approach leading to a solution: 1) development of a publicly visible strategic plan, 2) management of the process in a way that visibly unites the departments, and 3) process and practice that makes this all visible like it was during the January flooding event. I would like to commend the City's public safety team. It served as an example of why it is so important for the many different elements within the City - both public and private - to be able to work together for the safety of our citizens. To that end, having a cooperative relationship that the public can get behind and support will only increase one of the critical foundational components of our resilience.

Thank you,

Garret Matsuura

Hi Juana,

I printed and set at table behind chambers 20 copies.

Subject: Emergency manager position

Honorable mayor Julian and members of the Guadalupe City council. First off, we would like to welcome our newest members Christina Hernandez and Megan Lizalde. As concerned citizens of our community, we would like to address the issues that continue to plague our public safety including members of our dedicated fire department employees. We wish to bring to your attention that we do not need the emergency manager position that Police Chief Cash is requesting. What we need is a fire chief independent of him with the added responsibilities of the emergency manager.

The City budget stands for Public Safety as follows:

2.9 Million dollars - Police (42%) Most cities sit below 40%

1.2 Million dollars - Fire (18%) Most cities sit at 30%

1) The police chief is proposing 5 new/filling frozen positions. **\$500,000K** minimum by my estimation.

- 1 New Sargeant Position
- 3 Police Positions (existing but currently frozen)
- 1 Emergency Coordinator Position

2) Fire is receiving NO new positions/funding. 0.00\$ (not including pay cuts/schedule changes to avoid OT for the department and empty positions 6 to 9 empty positions currently)

3) Creating an Emergency Manager Position instead of a Fire Chief Position will result in wasteful spending, and a bloated one-sided budget, all while neglecting the leadership desperately needed on the fire department side of public safety. Unless the true goal is to truly disband the fire department. I have seen no evidence to support otherwise. A fire Chief would be able to fulfill the Emergency Manager position, and run the Fire Department, all while addressing the budget issues and apply for funding Grants and install a viable Impact Fee Program for future City growth.

4) Police Officers are currently working 15 days in a row because employees won't stay. This is a huge strain on good employee's backs. Employees from almost every department are resigning for being underpaid, while department heads are receiving pay raises across the board.

As a retired full time paid fire captain, I know the importance of having a fully staffed and highly trained first responders. This is crucial for our public safety. Your consideration to this matter is appreciated. Any questions, please feel free to contact us.
